MCC Epping Level 3, 3 Carlingford Rd, Epping

Important Update:

At Macquarie Community College we are always looking for ways to make your learning experience better and easier.

To keep things simple and transparent, we've made a few updates to our course fees.

Course Fee Increase: The slight increase in course fees ensures we can continue to invest in maintaining high-quality programs, updating resources, supporting skilled educators, and improving the overall student experience. This adjustment allows us to deliver the exceptional learning opportunities you value.

No More Card Fees! We've removed merchant fees for card transactions, so there's no extra charge when you pay by card. These changes help us continue delivering great programs while keeping things fair and straightforward for you.

Thank you for being part of our learning community. We are excited to support you on your journey and "Never Stop Learning".

GET THE SKILLS YOU NEED TO GET THE JOB YOU WANT!

Macquarie Community College, a leading provider of adult education since 1950, can help you take the first step in getting the career you have always wanted.

We offer accredited courses from **Pathways** and **Skill Sets** to **Certificate** and **Diploma** qualifications. Training can be tailored to the workplace in accordance with the training packages.

Tutor Spotlight

Haih Aly

*Computer and Business
course trainer*

"I've been passionate about education for more than 20 years," Haih shares. "Seeing learners experience that 'aha' moment when something finally clicks is what keeps me going. It's one of the most rewarding feelings as a teacher."

Haih plays a vital role as a trainer in Computer and Business Training within the Vocational Education and Training (VET) sector. She helps students build foundational digital skills, preparing them for careers in various industries, including retail and administration, with a strong focus on digital literacy and workplace technology.

Transforming Learning Through Technology

But there's more to Haih than her impressive teaching experience. A self-proclaimed "people person," she enjoys exploring new technologies, staying current with education trends, and creating a supportive, engaging learning environment where students can thrive.

Making a Real Difference with Computer Courses

Haih's teaching journey is deeply rooted in her desire to make a positive impact on people's lives:

"I naturally gravitated toward teaching because I wanted to help others gain practical digital skills that open doors to new career opportunities. It's incredible to watch learners gain confidence, overcome personal and technical challenges, and discover their potential."

When asked what she loves most about teaching the Computer skills courses, Haih lights up, emphasising the personal growth she witnesses. Many learners start with little to no digital skills, but by the end, they can confidently navigate software, complete tasks, and apply their knowledge in real-world situations.

Words of Encouragement for Aspiring Learners

Haih's advice to learners is simple but powerful:

"Don't be afraid to ask questions or make mistakes. Learning is a journey, and every challenge is an opportunity to grow."

She emphasises the importance of a supportive learning environment and encourages her peers and the community to continue fostering inclusivity and growth.

"Education is most powerful when we support each other's potential, whether in the classroom, the workplace, or beyond."

Student Success Stories

Journey to Employment

Anh's journey to employment started with a friend who introduced her to Macquarie Community College while enrolling in the aged care course. Initially interested in a Barista course, Anh found the Career Guidance Workshops and decided they were the right fit to start her new journey.

The NSW Government's Adult and Community Education (ACE) Program provides affordable, local training and education to NSW communities. Under the ACE program, participants, employers, delivery partners and providers and the government collaborate to improve learning outcomes for learners and meet community training needs.

Accessing the ACE funding, Anh enrolled in 8 workshops designed to help people like Anh navigate the Australian job market.

Overcoming Barriers with the Right Support

Before joining the course, Anh faced multiple challenges:

” I assumed it was difficult for someone without prior local experience to get a decent job. My English is not as good as someone living here for many years (not to mention native speakers). I didn't know what the company was looking for in a candidate. And importantly, I didn't know what job to apply for.”

Step by step, the workshops helped Anh build confidence, improve her resume, and practice interview techniques. She learned how to highlight her skills and present herself as a strong candidate.

A Job Offer – Faster Than Expected!

Anh applied for a position and followed everything she learned at Macquarie Community College. The results?

” I cannot wait to tell you that I got the job offer for the position that I applied for. Zoom interview yesterday, in-person interview this morning, and offer sent this afternoon. They said they were very impressed.”

It was the message Anh sent to Denise Dewar, Macquarie Community College Trainer, with the words of gratitude.

Anh's success is a testament to the power of community education. She not only gained technical skills but also built the confidence to succeed

From Classroom to Preschool: How Sarah Found Her Calling in Child Care Career

For Sarah Ross (on the left in the photo), the path to her dream career began with a simple truth – she's always loved children. However, her school time wasn't always easy. Crowds made her anxious and the pressure to perform in large classrooms felt overwhelming. That changed when she discovered Macquarie Community College's Child Care courses, where small class sizes and a supportive environment helped her thrive.

Child Care Career Confidence: Starting Small, Dreaming Big

” I knew I couldn't cope with large numbers of students,” Sarah says. “So, I was pleasantly surprised to find that Macquarie Community College offered small classes, where I felt comfortable and could focus on learning.”

Learning Child Care, Finding Herself

Sarah's journey wasn't just about textbooks and training hours. It was about discovering strengths she didn't know she had. She learned the milestones of child development and the power of understanding each child's unique needs.

” These skills helped me understand my own challenges too,” she reflects. “When I work with different children now, I can recognise those differences, because I've learned how to reflect on myself as well.”

One unforgettable moment?

“We came to the class with the thought we'd be studying legislation,” she laughs, “but within the hour, we were at the park playing kids' games and swinging on the swings. It reminded us why we love this job.”

Why Child Care a great Choice for School Leavers Child care isn't just a job – it's a rewarding, impactful career.

And for students like Sarah, it's the perfect next step after school. Sarah started her training at just 16 and now works in a preschool, doing what she loves every day.

Our Students Testimonial

“**Lucia**

“They teach differently. We practised real skills; things I use every day.

When you’re working, you don’t always realise the impact you have. Studying helped me see that what we do really matters.”

“**Sarah**

“If you want a calm, supportive place to learn – and to actually enjoy what you study – this is Macquarie Community College.”

“**Mark**

Macquarie Community College team is very welcoming and understanding. They make it easier to start again.

“**Adib**

I gained essential skills in software applications, boosting my confidence in using technology.

“**Jan**

I love the course structure which provided opportunity to learn online with chances to share ideas. Thank you for that.

Foreign Languages

Finding your level

Foreign Languages

We have simplified the structure of our foreign language courses. This has been done based on feedback from tutors and students and with the aim of offering a more regular and consistent offering across each language and location. The previously offered 10 levels have been restricted to 4 levels – Introduction, Beginners, Intermediate and Advanced.

The introduction courses are designed as a one course only starting point for new students, but the other levels allow for students to continue until they reach the required competency to progress. The time to develop this competency will vary between students but as a guide 2 to 4 terms is often required. Continuing students should discuss with the tutor when they are ready to progress to the next level and new students with a prior background in the

language should contact the college to be assessed and placed into the correct class.

Introduction (previously Level 1)

This level is for students with little or no experience in the language. Classes will be conducted in English and students will learn greetings, basic vocabulary and some simple aspects of conversation. These courses will suit students starting out in the study of the language or just looking for some basics of the language for travel, work or social situations.

Beginners (previously Levels 2 and 3)

This level will provide the next step for students that have completed the Introduction course or have a basic knowledge of the language from previous study, travel or other exposure. Classes will be conducted in English but some basic conversations

in the chosen language will be introduced.

Intermediate (previously Levels 4 and 5)

Students should have the capacity to conduct a simple conversation using basic language. This may have been obtained through the completion of the Beginners level or other study. Classes will increasingly be delivered in the language being learnt and focus will be on more complex vocabulary, grammar, reading and writing.

Advanced (previously Level 6 and above)

Courses at this level are largely conducted in the chosen language. Students should be capable of holding a simple conversation or follow a conversation between fluent speakers. A basic understanding of reading, writing and grammar will be further developed at this level.
