Important Update:

At Macquarie Community College we are always looking for ways to make your learning experience better and easier.

To keep things simple and transparent, we've made a few updates to our course fees.

Course Fee Increase: The slight increase in course fees ensures we can continue to invest in maintaining high-quality programs, updating resources, supporting skilled educators, and improving the overall student experience. This adjustment allows us to deliver the exceptional learning opportunities you value.

No More Card Fees! We've removed merchant fees for card transactions, so there's no extra charge when you pay by card. These changes help us continue delivering great programs while keeping things fair and straightforward for you.

Thank you for being part of our learning community. We are excited to support you on your journey and "Never Stop Learning".

GET THE SKILLS YOU NEED TO GET THE JOB YOU WANT!

Macquarie Community College, a leading provider of adult education since 1950, can help you take the first step in getting the career you have always wanted.

We offer accredited courses from **Pathways** and **Skill Sets** to **Certificate** and **Diploma** qualifications. Training can be tailored to the workplace in accordance with the training packages.

Tutor Spotlight

Heather's Story

Purpose-Driven Leadership

For over a decade, Heather Hill has been an inspiring presence at Macquarie Community College (MCC) through her leadership, passion, and deep commitment to student success. As Lead Trainer for Community Services courses, she brings more than just knowledge to the classroom – she brings her heart.

A Role Driven by Purpose

When asked what gets her out of bed in the morning, Heather's answer is beautifully simple: "The sun rising."

However, her purpose goes far beyond that. A desire to empower others drives Heather the most. Above all Heather sees her role as a chance to create lasting change in both students' lives and the communities they will serve.

"The main thing I hope students gain is a real compassion for caring for our elderly and people living with a disability. A deep understanding of person-centred care, and employment where they are fulfilled and satisfied."

Furthermore, Heather's teaching goes beyond the textbook. She helps students develop empathy, respect, and a true appreciation for every individual's dignity and rights. Her experience in the field, combined with a student-focused approach, ensures graduates are not just job-ready – but emotionally and ethically prepared for the demands of the sector.

Leading With Empathy & Experience

Heather's values and lived experience form the foundation of her strengths. She believes in lifelong learning, inclusivity, and the power of person-centred practice – principles she lives by as both a trainer and leader of Community Services courses.

“

"I believe strongly in modelling the same person-centred values we teach – treating every student with respect, valuing their input, and encouraging their growth."

Her approach is enriched by:

- A passion for empowering others
- Deep empathy and compassion
- Strong industry experience
- A commitment to clear communication and active listening

These strengths have helped her guide hundreds of students through their study journey – especially those facing barriers or returning to education.

According to Heather, the College's success lies in its practical, student-focused approach.

"We prepare learners for real-world roles in community services, aged care, and disability support – not just academically, but emotionally and ethically."

MCC works closely with local providers to ensure training meets sector needs and provides meaningful placement opportunities. Small class sizes, tailored support, and a culture of belonging make it a place where every learner is seen and supported.

Looking Ahead

In the next five years, Heather hopes to make MCC's programs even more accessible, particularly for underrepresented groups – including people from culturally and linguistically diverse backgrounds, Aboriginal and Torres Strait Islander communities, and people with disability.

"I want to build stronger partnerships with local services, so students gain real-world experience and clear employment pathways."

A Legacy of Empowerment

As the College celebrates 75 years, Heather reflects on its long-standing role in transforming lives.

"The College has trained thousands who are now essential frontline workers in our communities. It has always been a place for second chances – for people to learn, grow, and succeed."

We're proud to have leaders like Heather who bring warmth, wisdom, and an unwavering commitment to education that changes lives.

Student Success Stories

Learning English, Finding Belonging: Esther's Journey

When Esther Cheng lost her husband, life changed. Suddenly alone in Sydney, far from her birthplace of Hong Kong, she began looking for something to fill the silence – something to give her purpose again. That's when she found English classes at Macquarie Community College.

"I had nothing to do. I needed to find myself again," Esther shares. "I saw the English courses at MCC. They were short, flexible, and nearby. It was the perfect place to start."

Though she had learned some English in her youth, Esther wanted to improve her skills and build confidence. She joined the Intermediate English class – and found much more than just language lessons.

A Class That Feels Like Family

"At MCC, we don't just learn English. We learn how to live better," Esther says with a smile.

The class covers everyday English with a practical focus – like calculating petrol costs or writing notes for daily use. But it also includes fun, hands-on activities like origami, which bring joy and creativity into the classroom.

The small group size made it easy to make friends.

"We've been in the same class for four months now. We help each other. We're not strangers anymore," she says. "I look forward to seeing them every week. I don't feel so lonely now."

For Esther, the sense of community and belonging is just as valuable as learning grammar or vocabulary.

Learning English, One Lesson at a Time

Esther speaks warmly of her teacher Mirunalini:

"She gives us so much. She really cares if we understand. She wants us to succeed."

Esther and her classmates at Epping campus

That support has inspired Esther to keep going. When this course finishes, she plans to continue learning English: "I want to keep learning. It helps me grow and keeps me connected."

Her advice for others thinking about studying English? "We all come from different backgrounds. Just enjoy it. Listen to your teacher. Do the homework. You'll learn so much."

Our Students Testimonial

“ Ester

“At MCC, we don’t just learn English. We also learn how to live better, connect with others, and grow in confidence. It has truly changed my life.”

“ Vipula

“Best teachers, and the course schedule is clear and easy to follow. I always feel well-prepared and confident, thanks to the guidance and encouragement I receive at MCC.”

“ Samuel

I joined a computer class with very little experience, and now I can use technology with confidence. The trainers were patient, supportive, and made learning enjoyable.”

“ Dinah

“This aquafitness class is very intense. It’s hard work, but you feel that you’ve accomplished a lot afterwards. It keeps me motivated, fit, and gives me a real sense of achievement.”

“ Katharine

“Very flexible time schedule, great tutors and lots of information and resources to learn from. MCC really supports students at every step, which makes studying much easier and enjoyable.”

“ Aisha

“The childcare course at MCC gave me the skills I needed to start a new career. The practical training, friendly environment, and encouragement from my tutors made all the difference.”

Foreign Languages

Finding your level

Foreign Languages

We have simplified the structure of our foreign language courses. This has been done based on feedback from tutors and students and with the aim of offering a more regular and consistent offering across each language and location. The previously offered 10 levels have been restricted to 4 levels – Introduction, Beginners, Intermediate and Advanced.

The introduction courses are designed as a one course only starting point for new students, but the other levels allow for students to continue until they reach the required competency to progress. The time to develop this competency will vary between students but as a guide 2 to 4 terms is often required. Continuing students should discuss with the tutor when they are ready to progress to the next level and new students with a prior background in the

language should contact the college to be assessed and placed into the correct class.

Introduction (previously Level 1)

This level is for students with little or no experience in the language. Classes will be conducted in English and students will learn greetings, basic vocabulary and some simple aspects of conversation. These courses will suit students starting out in the study of the language or just looking for some basics of the language for travel, work or social situations.

Beginners (previously Levels 2 and 3)

This level will provide the next step for students that have completed the Introduction course or have a basic knowledge of the language from previous study, travel or other exposure. Classes will be conducted in English but some basic conversations

in the chosen language will be introduced.

Intermediate (previously Levels 4 and 5)

Students should have the capacity to conduct a simple conversation using basic language. This may have been obtained through the completion of the Beginners level or other study. Classes will increasingly be delivered in the language being learnt and focus will be on more complex vocabulary, grammar, reading and writing.

Advanced (previously Level 6 and above)

Courses at this level are largely conducted in the chosen language. Students should be capable of holding a simple conversation or follow a conversation between fluent speakers. A basic understanding of reading, writing and grammar will be further developed at this level.
