Student Success Stories

Building a New Future Through English: Mirza's Journey

After arriving in Australia from Afghanistan, Mirza joined the Skills for Education and Employment (SEE) Program at Macquarie Community College's Blacktown Campus.

Through supportive English classes, practical activities and encouragement from his teacher, he is building the language, digital and employability skills he needs for everyday life, further study and future work.

Although he is one of the youngest students in his class, Mirza has already made strong progress. His classmates know him as a kind and supportive young man who enjoys making people laugh and rarely stops smiling.

Behind that smile is a story of resilience, sacrifice and determination.

How Did Mirza Find the SEE Program?

Mirza and his family arrived in Australia approximately one year ago with support from his uncle. Everything felt different.

"Life in Australia was so different from what I knew," he says." It felt safe, and people lived in a different way."

Mirza first heard about Macquarie Community College through his sister, who was already studying English at the College.

"My sister went to Macquarie Community College to learn English, and she loved it," he says. "She suggested that I apply."

Mirza completed an online form and was contacted by the College shortly afterwards.

"The process of applying for the SEE Program was very quick and easy. I did not know English well, but the College team supported me, so it was not difficult."

He then enrolled in an Initial English course through the SEE Program at the Blacktown Campus.

What Was Mirza's First English Class Like?

Mirza particularly values the practical activities used in his English classes.

"The teacher Rachel is very kind and supportive," he says. "Every day we complete interesting activities based on real life. They help me build the skills I need in everyday situations."

Rachel describes Mirza as *"a resilient and enthusiastic student who has adapted to significant life changes after arriving in Australia as a refugee. He is confident, energetic, and enjoys interacting with his peers. Mirza brings a positive presence to the classroom and is willing to participate when engaged in activities that interest him."*

Through the SEE Program, Mirza is improving his speaking, reading and writing while also developing numeracy, digital and employability skills.

He especially enjoys interactive activities that allow students to learn together.

"I love Kahoot games and group activities where Rachel asks us to discuss different topics. I can feel my English becoming better and better."

Student Success Stories

The supportive classroom environment has also helped Mirza form friendships and feel more comfortable communicating with others.

He also joined the 2026 Harmony Week celebration at Macquarie Community College's Blacktown Campus, giving him another opportunity to connect with the college community.

How Is English Helping Mirza Prepare for Work and Study?

Mirza is clear about what he wants to achieve.

He hopes to continue studying, gain a recognised qualification and eventually become a mechanic or plumber. One day, he would like to operate his own business.

"I want to open a mechanical workshop or become a plumber," he says. *"First, I will learn English and improve my reading and writing. Then I want to continue studying and gain a certificate."*

His motivation comes from the sacrifices his parents made to give their children a safer future.

> ***"My parents sacrificed a lot to bring me here, and I want to give something back to them. To do that, I need to complete my studies—and I will."***

Life in Australia has also given Mirza the freedom to explore new interests.

He enjoys swimming, singing and practising Brazilian jiu-jitsu with his cousin. He has even participated in his first competition.

"I lost," he says with a smile. *"Now I am working even harder so I can win next time."*

It is an attitude that reflects the way Mirza approaches learning: setbacks are not reasons to stop, but opportunities to become stronger.

Mirza's Advice for Other English Learners

Mirza believes that a supportive teacher can make an enormous difference to a student's confidence.

"When you respect and trust your teacher, they can help you so much," he says. *"When students are afraid, it is very difficult for them to learn."*

His advice to other people beginning a new life in Australia is to remain focused on what they can build next.

> ***"You cannot change what happened before, but you can focus on your new life and make it work."***

Languages & **Communication**

Finding your level

Foreign Languages

We have simplified the structure of our foreign language courses. This has been done based on feedback from tutors and students and with the aim of offering a more regular and consistent offering across each language and location. The previously offered 10 levels have been restricted to 4 levels – Introduction, Beginners, Intermediate and Advanced.

The introduction courses are designed as a one course only starting point for new students, but the other levels allow for students to continue until they reach the required competency to progress. The time to develop this competency will vary between students but as a guide 2 to 4 terms is often required. Continuing students should discuss with the tutor when they are ready to progress to the next level and new students with a prior background in the language should contact the college to be assessed and placed into the correct class.

Introduction (previously Level 1)

This level is for students with little or no experience in the language. Classes will be conducted in English and students will learn greetings, basic vocabulary and some simple aspects of conversation. These courses will suit students starting out in the study of the language or just looking for some basics of the language for travel, work or social situations.

Beginners (previously Levels 2 and 3)

This level will provide the next step for students that have completed the Introduction course or have a basic knowledge of the language from previous study, travel or other exposure. Classes will be conducted in English but some basic conversations in the chosen language will be introduced.

Intermediate (previously Levels 4 and 5)

Students should have the capacity to conduct a simple conversation using basic language. This may have been obtained through the completion of the Beginners level or other study. Classes will increasingly be delivered in the language being learnt and focus will be on more complex vocabulary, grammar, reading and writing.

Advanced (previously Level 6 and above)

Courses at this level are largely conducted in the chosen language. Students should be capable of holding a simple conversation or follow a conversation between fluent speakers. A basic understanding of reading, writing and grammar will be further developed at this level.
